About Me

Enthusiastic first-year Computer Science and Engineering student at the University of Lucknow with a strong foundation in full-stack web development, Python data science, and modern AI tooling. Passionate about building clean, efficient software and eager to contribute to real-world projects through internships and open-source collaboration.

Education

Bachelor of Technology — Computer Science & Engineering

2025 — 2029

University of Lucknow, Lucknow, Uttar Pradesh

First Year

Higher Secondary (XII) — Science (PCM + CS)

2024

Heritage International Public School, Kasia, Kushinagar, Uttar Pradesh

84.6%

Secondary (X)

2022

Heritage International Public School, Kasia, Kushinagar, Uttar Pradesh

86%

Technical Skills

Frontend	HTML5	CSS3	Tailwind CSS	JavaScript (ES6+)	React.js	Next.js
Backend	Node.js	Next.js	REST APIs			
Database	MongoDB	MySQL				
Python	Python	NumPy	Pandas	Matplotlib		
AI / ML	AI Fundamentals	Prompt Engineering				
Tools	Git & GitHub	VS Code	Vercel	Linux CLI	L ^A T _E X	

Projects

RepoRaft — Community Resource Hub [🔗 reporaft.vercel.app](https://reporaft.vercel.app)

2025

Next.js, React.js, Tailwind CSS, Node.js, Vercel

- Built a full-stack community platform where students discover and share the best tutorials, GitHub repos, PDFs, and courses — organised by topic and ranked by upvotes.
- Implemented category-based filtering (Web Dev, ML, DSA, etc.), a community upvoting system, and user authentication via NextAuth.
- Designed a clean, responsive UI with Tailwind CSS and deployed on Vercel with zero-downtime CI/CD.

TrendPilot — Autonomous AI Content Factory [🔗 h4g-ten.vercel.app](https://h4g-ten.vercel.app)

2025

Next.js, React.js, Tailwind CSS, AI APIs, Vercel

- Built an AI-powered autonomous content platform that detects trending topics, writes scripts, generates videos, and schedules posts across platforms like TikTok and YouTube Shorts.
- Integrated AI APIs for trend detection, script generation, and automated content pipeline from trend to timeline.
- Designed a sleek, responsive UI with Tailwind CSS and deployed on Vercel with full CI/CD.

Next.js, React.js, Tailwind CSS, Framer, Vercel

- Designed and built a fully responsive personal portfolio showcasing projects and skills.
- Implemented smooth animations and dark-mode toggle using vanilla JavaScript.
- Deployed on Vercel with a custom domain and achieved 95+ Lighthouse performance score.

Data Analysis Dashboard

2025

Python, Pandas, NumPy, Matplotlib

- Built a Python script to clean, analyse, and visualise a public dataset (IPL stats).
- Used Pandas for data wrangling and NumPy for statistical computations.
- Generated interactive charts and exported summary reports.

Full-Stack To-Do App

2024

React.js, Node.js, Next.js, REST API

- Developed a CRUD task manager with user authentication using Next.js API routes.
- Built a responsive React frontend with real-time state management via React hooks.
- Integrated local storage persistence and REST endpoints for seamless UX.

AI Chat Interface

2024

React.js, Tailwind CSS, OpenAI API

- Created a ChatGPT-style web app that sends user queries to the OpenAI API and displays responses.
- Added streaming response support for a snappy, real-time feel.
- Styled entirely with Tailwind CSS.

Achievements & Activities

- Active contributor to open-source repositories on GitHub.
- Participated in college-level coding competitions and hackathons.
- Member of the University CSE Tech Club, attending workshops on web and AI.
- Self-taught full-stack skills through online platforms (freeCodeCamp, Udemy, YouTube).
